

Our Impact in New York

Every day, millions of patients, caregivers and healthcare providers rely on Baxter's leading portfolio of diagnostic, critical care, kidney care, nutrition, hospital and surgical products used across patient homes, hospitals, physician offices and other sites of care. Baxter's acquisition of Hillrom (including Welch Allyn) in 2021 united our two New York facilities in Medina and Skaneateles Falls under one mission to Save and Sustain Lives.

In New York, We Make Medical Devices Critical to Patient Care

Infusion Pumps

deliver life-sustaining medicines and fluids to patients in hospitals and clinics

Patient Monitoring Systems

measure patient vital signs in doctor's offices and hospitals

Physical Exam Tools

help doctors and nurses quickly assess patient conditions

Chips Are Critical to the Medical Devices We Manufacture

~70

Chips are needed to build one Baxter infusion pump

Chips are critical to the safety software that helps protect patient infusions

150+

Chips are needed to build one vital signs monitor

The chips help ensure the accuracy of the monitor's sensors, which can measure a patient's temperature, blood pressure and oxygen levels

Up to 15*

Infusion pumps can be used simultaneously on high acuity patients

2*

Approximate number of pumps needed per U.S. hospital bed

Our New York Team Helps Deliver on Our Mission to Save & Sustain Lives

69

Years we've been operating our office, R&D center and manufacturing plant in Skaneateles Falls

45

Years the Medina plant has been operating. Baxter acquired the facility in 2012

~1,600

Employees work at our Medina and Skaneateles Falls facilities

~\$1M

Total charitable giving in 2021 that supported non-profits throughout New York**
